treatment of low back pain”**

**Approved for 1.0 hour of Continuing Nursing Education**  
**CCM credits requested - approval pending**

**Transi**  
**AXIALIF**

*“The AxiaLIF system is the least invasive approach to lumbar fusion and, according to clinical studies, dramatically reduces patient recovery time in comparison to traditional lumbar fusion procedures. AxiaLIF patients are generally able to walk the same day of surgery, most are released within 24 hours and, on average, return to work within 15 days.”*

**Meeting location: Rudino's RTP - (Miami Blvd/I-40)**

**4911 Central Park Lane  
Durham, NC 27703**
